

Client Portal Guide

BAYSIDE DYSPHAGIA DIAGNOSTICS · MOBILE FEES REFERRALS

BDD uses a **secure, HIPAA-compliant Client Portal** to receive FEES referrals and deliver completed evaluation reports. This guide walks facility staff through first-time setup, submitting a referral, and retrieving a patient's report.

1 Open your welcome email

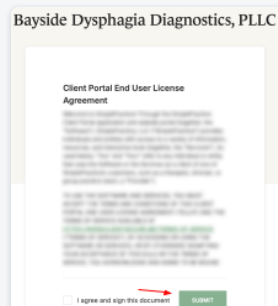

You'll receive an email from Bayside Dysphagia Diagnostics. Click **SIGN IN** to access the portal.

Note The sign-in link is one-time and expires — use it promptly.

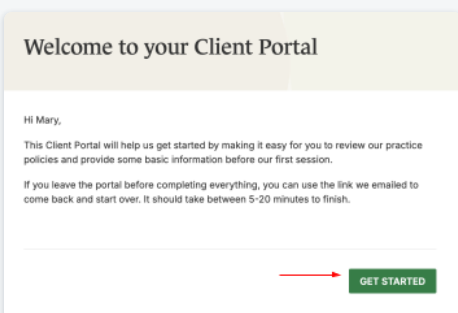

2 Accept the user agreement

Check **"I agree and sign this document"**, then click **SUBMIT**.

3 Get started

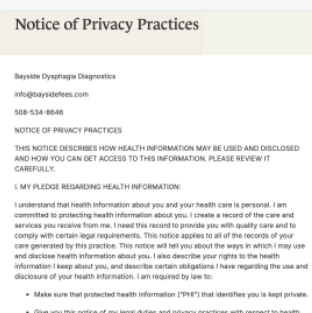

You now have access to your Client Portal. Click **GET STARTED**.

Tip If you leave before finishing, use the emailed link to come back and start over.

4 Agree to Privacy Practices

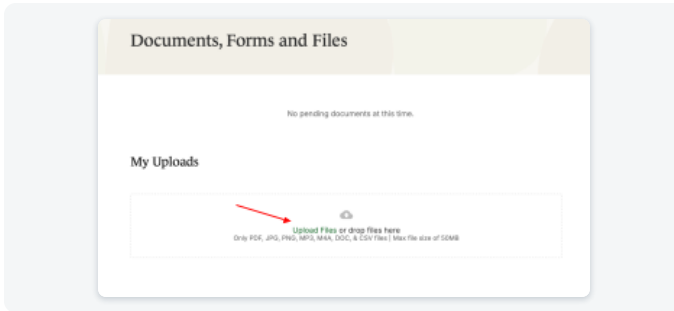

Review the Notice of Privacy Practices and click **AGREE** at the bottom of the page.

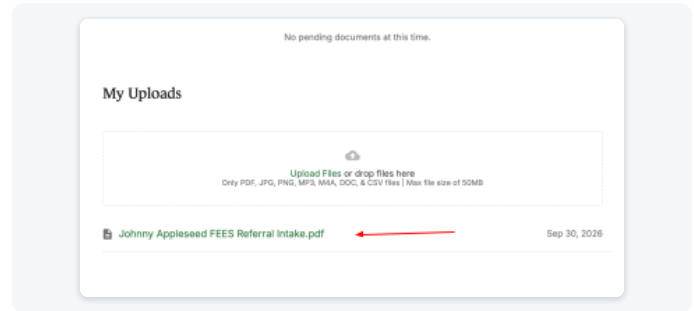

5 Upload the FEES Referral Intake Form

Under **My Uploads**, click **Upload Files** (or drag and drop). Uploading the intake form alerts BDD of the new referral. Accepted: PDF, JPG, PNG, DOC and similar · max 50 MB.

Upload area

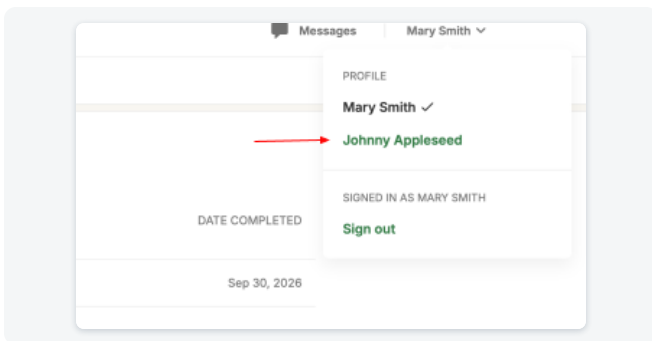

Example: successful upload for patient "Johnny Appleseed"

6 Switch to the patient's portal

Once the patient is entered, use the **name pull-down** at the upper right to move between your portal and the patient's.

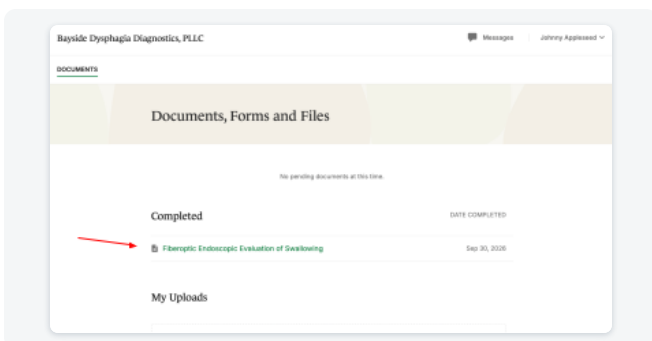

7 Review & e-sign the FEES report

When the evaluation is complete, open the report under the patient's name, **e-sign** it, and download the file.

8 Find completed reports anytime

The FEES report stays in the patient's portal under **Documents, Forms and Files** → **Completed**.

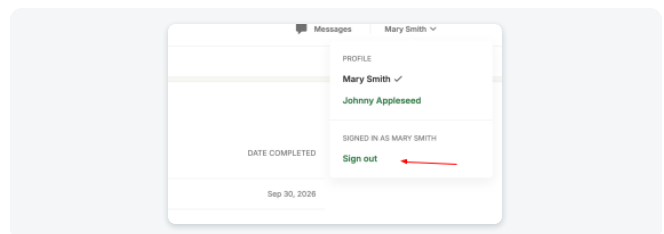

9 Toggle between portals

Use the same upper-right pull-down (as in Step 6) to return to your own portal.

10 Always sign out

Click **sign out** from the pull-down at the end of every session — especially on shared facility computers.

Questions or trouble signing in?

We're happy to help you get set up.
